POETRY WEEK

DECEMBER 7 - 11

上周，精彩纷呈的诗歌周圆满收官，期间，学校举办了形式多样以及内容丰富的活动和庆祝活动，旨在提供一个平台，让学生在诗歌的海洋中遨游，通过新颖的形式掌握诗歌的相关知识，尽享学习诗歌所带来的乐趣，并以创造性的方式表达自己的情感和思想。活动大多数随堂开展，且根据不同年级安排有针对性的活动。活动周期间，学生学习了排句、五行诗等各具特色的诗歌形式和结构，一起探讨了诗歌语言的韵律、押头韵、拟人、明喻和隐喻等手法。我们还鼓励学生原创诗歌，并参加诗歌表演等活动。

星期五，举行了一场特别的活动，每个班级的学生去到低年级，为他们阅读和演绎各类诗歌，这一形式给予孩子们别样的体验，对于阅读者和倾听者而言均收获良多，大家一起渡过了美好的时光。

五年级的学生拥有得天独厚的有利条件，九、十年的学生志愿者自愿创建诗歌工作坊，为五年级的学生提供服务。教授如何写五行诗，并能独立创作。非常感谢每一位参与的中学老师和学生，谢谢你们！

当然，感谢整个星期抽出宝贵时间来校为学生进行朗读的客座朗读者，感谢老师和其他教职员工分享的各种各样精彩的诗歌，感谢你们，让孩子们在这一周过得充实而快乐！

诗歌周的高潮当属集会演出啦。孩子们欢聚一堂，不为分出高低，而是共享诗歌的乐趣。孩子们提供了精彩的演出，表演既富有创造力，又多姿多彩！形式不固定，有班级表演也有个人或小组汇演，你们真棒！孩子们！

Student Voice 2

Talking about our school, it is a place I should thank in every minute I think of it. It teaches us every thing.

In the nice and clean classroom, the teacher teaches us Myth and legends' features, and patiently repeats bit to students who don't understand. When we make mistakes, the teachers will teach us to face the problem and correct it by ourselves. The teachers are good to us. We play games when we have spare time from learning and always speaks calmly and nicely to us. I am so thankful to all those patience and hardness of teaching us.

The classmates are really friendly and hard working. In class, students are having excellent behaviors, marvelous attitude on learning and a great effort on communication. We are all talking about ideas with full evidence, no one is arguing with each other's partner. When we are on the playground, almost everyone is playing nicely with their friends or toy but not unhappy or alone.

I love the good students in our school. The environment of our school is perfect for studying. The classroom is tidy with no rubbish on the table or floor, and there is a nice and quiet library with a huge amount of lovely books and you can borrow them! On the playground, there is many fun things waiting for you to explore. There is two monkey bars to climb on! And there is a huge football field with red running tracks over it. The most fun of all, the Toy House! In the Toy House, there is badminton rackets, bouncing ball, football, throwing toy... So many toys! I love the reading, studying, and leisure environment!

I love my school!

Hello everybody, today I want to tell you some interesting things about our school the first thing I want to talk about is the toy house. I like the toy house because it has many fun toys that children can play with. The next thing I want to talk about is the canteen. The canteen has a lot of yummy food, and children can get a lot of energy. The third thing is about the little garden. It is my favorite place because, in the little garden, there are a lot of benches and you can sit in the little garden to relax for a while. Now I will talk about the classrooms. The classrooms are wonderful. I feel like the classrooms are huge and wide. Also, the colourful boards on the walls make the classroom beautiful. The last thing I want to talk about is the teachers. I like the teachers because they are friendly, and they also teach us a lot of things. This is why I like SUI.

This is the first semester (actually, the first three months) in SUIS. It was a bit of challenging for me at first. However, I quickly became familiar with everything at school and unexpectedly learned some skills.

Compared with my previous school, there are more subjects that I am interested in. We did science investigations, such as separating “Alien Soup” and seeing how long it will take for sugar to dissolve in water of different temperature. In PE class, we did gymnastics and practiced our own routine using forward and backward roll combined with balances together at the end of that topic.

In my opinion, the most attractive event of this semester was the book week. Every participant actively joined the “Racing to Read” competition and tried their best to read more books. Classmates in our class worked together to write their stories for the author day.

Our teachers are all very responsible for our learning; encouraging us when we got something wrong, helping with the questions that we don't know how to do and our questions about each class. Our teachers not only help with our learning, they also care for our health. After the COVID-19, our school had made very good decisions about our safety and health.

Our classes are full of fun activities. For example, in Science class, for G5, you could do experiments with sugar and see how fast it dissolves, or you could make a circuit in the first semester! In English, we will be able to write short stories and then publish them to improve our ability to write stories.

My name is Katherine and I am a student from SUIS. At SUIS, there are always events happening. We have Book Week, Earth Day, computer Science week and Anti-Bully Day. All the events will make our school environment better. We will put up our classwork on display, others can learn about something just by reading what we display. It makes our learning more enjoyable. Our works also make our school more colourful. Our school is wonderful and all you can hear is laughter. I love the events here as well as the sentence “Where East meets West”
